

GIGABYTE CeBIT 2009 Highlights

Meet All the Needs with GIGABYTE Lifestyles

Hannover, Germany – March 03, 2009 – Even during times of subdued economy, GIGABYTE, a global renowned IT brand, resists on featuring breakthrough well-rounded solutions for users to experience Renaissance in Indoor or Outdoor Lifestyles at the world's leading IT technology tradeshow, CeBIT 2009 in Hannover, Germany from March 3rd to March 8th.

GIGABYTE guarantees to excite Heavy Internet Users with the highest quality and most innovative **Ultra Durable 3™ technology** motherboard featuring **2 ounces of copper for both the Power and Ground layers, and dramatically lowering system temperature** by delivering a more efficient spreading of heat from critical areas of the motherboard such as the CPU power zone throughout the entire PCB. GIGABYTE's Ultra Durable™ 3 also **lowers the PCB impedance by 50%**, which **helps to reduce electrical waste and further lowers component temperatures**. A 2oz Copper layer design also provides improved signal quality and lower EMI (Electromagnetic Interference), providing better system stability and allowing for greater margins for overclocking. For users who like to be online anytime everywhere, the cutting-edge design **Booktop M1022 equipped with a 10.1-inch LED backlight screen and the docking station** exclusively from GIGABYTE will definitely keep users connected to Fantasy World all the time. **Users can turn Booktop M1022 into a desktop** by simply attaching Booktop M1022 to this docking station.

To provide exquisite portable solutions for Mobility Users, GIGABYTE unveils the **10.1-inch true slim and light Thin Note M1024** which is only 890 grams and 2cm thick. Thin Note M1024 is definitely the perfect product for portable purposes and delivering fashion design and lifestyle. What's more, do not miss GIGABYTE's stylish and precious mouse, **GM-M7800S**, which is gracefully **designed with encrusted Swarovski crystal and quality leather** committing to bring fashion and style to Free Spirit.

With intention to present quick and hassle-free products for users, GIGABYTE has announced **All-In-One PC, AIO-1192**, combining desktop chassis with wide 19" LCD screen that brings a best solution for both cumbersome tangle of wires and the concessive small screen of laptop. Surprising slim and elegant appearance, AIO-1192 is the ONE for everything everywhere. Another "must-have" for users to enjoy Leisure Life is **well-rounded connected CE (Consumer Electronic) product, GN-MD300L-RH**. The heart of GN-MD300L-RH, **Intel Media Processor CE 3100**, is the **first system-on-a-chip (SoC) based on Intel architecture** for Internet-connected blu-ray players, advanced cable set top boxes, modular DTVs, and other connected CE products. GN-MD300L-RH will fire up a shift in demand from fixed-function CE products to programmable, scalable and interoperable CE devices across internet.

Last but not least, great tools specially dedicated for Gamers are the world's fastest, coolest and steady **Silent-Cell™** and **Ultra Durable VGA**. GIGABYTE rewrites the history of silent cooling to perfect the thermal performance, introducing the state-of-the-art **Silent-Cell™** Cooling featuring **a series of crimping layered fins with Aluminum nodes all-new zero-interval precision process**. The latest **Ultra Durable VGA** technology features five high quality components to **provide low GPU and memory temperature, high overclocking capability, and low power switching loss**. Definitely, gamers will love the Ultimate Precision Laser Gaming Mouse, **GIGABYTE GM-M8000**, equipped with the highest performance laser engine providing the most accurate precision, no tracking lag, and the highest resolution up to 4000dpi accompanying the unique scaling-designed switching button. Another powerful feature of GM-M8000 is the five programmable buttons and GHOST engine software. Expert gamers have the best short-cut to upgrade to the highest rank and achieve triumph in any game competition.

**Come and Join GIGABYTE CeBIT 2009
at Hall 21 / D56**
